ICO WHITEPAPER

ABSTRACT

Over the years, the world has witnessed a rapid introduction of many cryptocurrency tokens and there has been an uprising of numerous exchange platforms where investors buy and exchange their coins for diverse coins at less transaction fees. With the increasing need to exchange one token for the other, there has been a series of exploitation due to high fees charged during the process of coin exchange. It is against this backdrop that the experts of FastCoin Group developed a utility token called CoinsFee, which will serve as a game-changer and a great revolution in the crypto industry. CoinsFee will provide users with a seamless experience through its centralized exchange. The CoinsFee will serve as a medium of payment for operational costs, such as when you buy, sell, swap. etc. The FastCoin Exchange will be the best platform to exchange all manner of crypto and is cost-effective as it gives investors access to all services at a reduced rate.

However, this whitepaper fully gives insight into why the FastCoin Exchange remains reliable and affordable to buy and exchange cryptocurrency of all types using the CoinsFee, a utility token that will power FastCoin Exchange. It was developed using the Binance Smart Chain (BSC) that is characterized by high transaction capacity and low transaction fees that allow investors to save more money.

INTRODUCTION

The world experienced a turnaround in the financial system In 2008 when Satoshi Nakamoto presented his idea in a whitepaper that led to the birth of bitcoin. Since then, there has been the emergence of diverse coins around the world. The growing interest and desire by the world populace brought about the need for a faster and reliable source to buy all manners of coins. There have been some existing exchange platforms that are more expensive and not too reliable platforms to buy and exchange coins. This is why the professionals of FastCoin Group came up with a platform that will enable users to pay fewer fees when doing daily operations on FastCoin Exchange.

FastCoin group is a team that comprises various specialists in the blockchain and cryptocurrency space, with a combined experience of over ten years. This team of experts have gone deep in bringing to every investor in cryptocurrency around the globe an avenue where they will be able to buy different coins on the FastCoin Exchange platform using the CoinsFee as a medium of payment at very low transactional fees.

OUR VISION

Our Vision is to be a platform that users will trust while providing good and professional quality service at a low cost to the end-user.

We intend to achieve this through the provision of a medium of payment that is quite better than the options used by other exchanges.

OUR MISSION

Our mission is to give users of our platforms an avenue where they have unlimited access to various discounts using our utility token CoinsFee.

THE FASTCOIN GROUP

The FastCoin Group has been in operation since April 2020, offering users fast and secure delivery of all major Cryptocurrencies in more than 180 countries and 43 local currencies through the FastCoin Express platform, the group also developed a utility token that will be personal to their exchange platform which is CoinsFee.

CoinsFee utility token will be used to pay fees on the FastCoin Exchange ensuring a reduced rate giving the buyers more purchasing power.

WORKING OF FASTCOIN.EXPRESS

The FastCoin express is the first of its kind that enables fast and reliable cryptocurrency transactions. With FastCoin Express, users can buy their desired coin with just a few clicks and receive them in minutes, which is faster than the average market time.

With 5 years of exchange market experience in cryptocurrency; fast transactions, security and the safety of users takes priority to the professionals of FastCoin Express. With FastCoin Express, users can save more on a hassle-free platform, with the lowest market rate and fastest delivery times.

To FastCoin Express, the users are always winners.

FastCoin Express gives users a seamless expression while operating on the platform.

1. Sign Up

Sign up and get verified.
It's super easy and quick.

2. Buy Crypto

30\$ min on selected countries
Select one of the available coins
Provide your wallet address.

3. Receive Crypto

Receive crypto in your wallet within 1
to 60 minutes after the payment is
approved.

PROBLEMS

The problems that are associated with the existing exchange platforms are as follows;

- ❖ **High cost of transactions:** Buyers of cryptocurrencies tend to spend more on the platforms of the existing exchanges since their platform charges high fees for all operations.
- ❖ **Slow exchange process:** The existing platforms delay in their settling of coin exchange even after payments have been made as it takes hours for the buyers to get their coins in their wallets.
- ❖ **Reliability:** The existing platforms are not too reliable and their applications are not user-friendly.

SOLUTIONS OFFERED BY COINSFEE

- CoinsFee will offer customers affordable fees as it reduces the extra costs that other exchange platforms are charging.
- FastCoin Exchange will enable users when using CoinsFee to save up to 75% on transaction charges, the more you use CoinsFee, the more money you save.
- FastCoin Express uses third party partners to process payment and send liquidity. Buyers can receive their chosen coins in their wallet within minutes after payment.
- The experts of the FastCoin group will provide a reliable token utility platform where buyers and sellers can make payment for all the coins that are listed on the FastCoin exchange by providing a user-friendly mobile application that operates on both Android and IOS devices.
- FastCoin Exchange will include unique features such as OTC trading, Maker & Taker trading, future trading, swaps, Staking etc.

COINSFEE ECOSYSTEM

- ❖ CoinsFee is property of FASTCOIN OÜ company number (14748908) registered at Harju Maakond, Tallinn, Kesklinna Linnaosa, Juhkentali tn 8, 10132 - Estonia.
- ❖ All trademarks and copyrights belong to their respective owners.
- ❖ CoinsFee is a utility token that was developed by the experts of FastCoin Group to power the FastCoin Exchange.
- ❖ The token was created to be a utility token for FastCoin Exchange which will allow users to pay fewer fees when doing daily operations.
- ❖ CoinsFee was developed using BEP-20 Binance Smart Chain (BSC) with high liquidity and low transaction fees to allow their buyers to save more money. The token is governed by a dedicated system of smart contracts, which promotes security and transparency. Users can access the smart contract using <https://bscscan.com/token/0x1ec3bb50d5f315524c70e6d2124cedcde232ad68>
- ❖ By using the CoinsFee, FastCoin Exchange will enable users to save up to 75% on transaction charges. This implies that the more the user uses the utility token when exchanging on FastCoin, the more they save money and have higher purchasing power.

TECHNOLOGY STACK BEHIND COINSFEE

1. Blockchain Technology

A blockchain is an electronic distributed ledger that records every transaction computed on the network without the interference of a central authority. It is a kind of data structure that is secure, cryptography-based, and distributed across networks.

Main pillars of Blockchain Technology that drew Significant attention

1. Immutable ledger
2. Distributed ledger technology
3. Smart contracts

Benefits of blockchain technology

- It provides an equal opportunity to access information to every market participant
- Reduces the risk of transactions
- Blockchain decentralization ensures data safety
- Global accessibility
- It allows us to digitize any kind of asset.
- Digital tokens are a safeguard of ownership
- Increased transparency
- Accurate tracking
- Permanent ledger
- Cost reduction

FastCoin Group came up with the idea of developing a utility token that will make a difference in the market. The token name is CoinsFee (FEE)

TECHNOLOGY STACK BEHIND COINSFEE

2. Binance Smart Chain

Binance Smart Chain is one of the dynamic and potential blockchain networks that facilitates users with faster transactions at very low transaction fees. It is the best alternative to handle network congestion and gas fee issues. It renders an excellent space to create DApps and other DeFi protocols. It makes the supreme use of smart contracts to automate the process. It is a pre-written set of codes that executes the operation automatically when conditions are met.

Some of the benefits of Binance Smart Chain include

- Binance DEX, the leading decentralized exchange, provides a rich and growing digital asset ecosystem powered by blockchain technology.
- Cheap transaction fees of 1 cent.
- High speed, producing a block every 3 seconds
- DeFi interoperability.
- A supportive Binance ecosystem.
- A flourishing ecosystem of millions of users across Binance DEX
- A welcoming network of major crypto projects

Highlights of BSC

- EVM compatible
- Proof-of-Stake Authority
- Cross-chain transfer
- Cross-Chain Contact Event (Trade, transfer, and support)
- Highly performant

TECHNOLOGY STACK BEHIND COINSFEE

3. Cryptocurrencies

A digital form of money built on a decentralized ledger is termed as cryptocurrencies. Cryptocurrencies have some in-built advantages over fiat currencies. The key feature of the experiment (Invention of Bitcoin) was that the planet witnessed the invention of a digital currency that can perform without the control of the government or any central authority computing on a decentralized P2P network leveraging a blockchain. Cryptocurrencies are designed in such a manner, that it offers bundles of benefits in payment transactions.

Here is the list of benefits

- User anonymity
- Discretion
- Peer-to-peer focus
- Elimination of the third party
- Very low transaction fees
- Mobile payments can be done efficiently
- Accessibility

Now, international payments are very handy without incurring high transaction fees. Likewise, cryptocurrencies are also acting as resisting counterfeiting and fraud, which makes it more trustworthy.

WHY COINSFEE

- ❖ CoinsFee was developed using the Binance Smart Chain, ensuring maximum security with high liquidity and low transaction fees.
- ❖ CoinsFee will power FastCoin Exchange. This is a measure that was put in place by the experts of the FastCoin group to serve as a tool that will ensure that users of FastCoin Exchange are entitled to enormous discounts while trading, swapping, withdrawing, buying, selling etc. on the FastCoin Exchange.
- ❖ Cost-effective: The CoinsFee was introduced to serve as a utility token on the FastCoin Exchange which will give up to 75% discount for users.
- ❖ Customer satisfaction: CoinsFee is created with 100% attention in ensuring that the best services are delivered in the fastest and most convenient manner.
- ❖ Integrity: With CoinsFee, we serve with accountability, transparency, trust, honesty and consistency.
- ❖ Professionalism: FastCoin group comprises the best brains in the blockchain industry and are still aspiring to always employ the services of more professionals.
- ❖ Excellence: FastCoin group team always strives to offer better service and is committed to continuous improvement. CoinsFee will ensure a smooth payment experience.

COINSFEE FEATURES

CoinsFee Token features that goes beyond the FastCoin Exchange.

- ❖ Card payments: CoinsFee Token (FEE) can be the form of payment for a crypto card.
- ❖ Payment processing: Merchants can offer CoinsFee Token (FEE) as a means of payment for customers, offering more flexibility in payment methods.
- ❖ Booking travel arrangements: CoinsFee Token (FEE) can be used to book hotels and flights on select websites.
- ❖ Loans and transfers: CoinsFee Token (FEE) can be used as collateral for loans on certain platforms. Also, there could be apps that allow users to split bills and pay friends and family through CoinsFee Token.

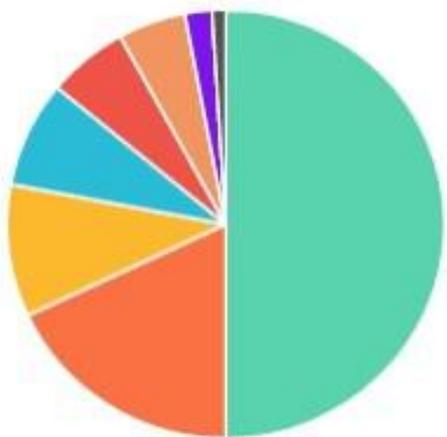

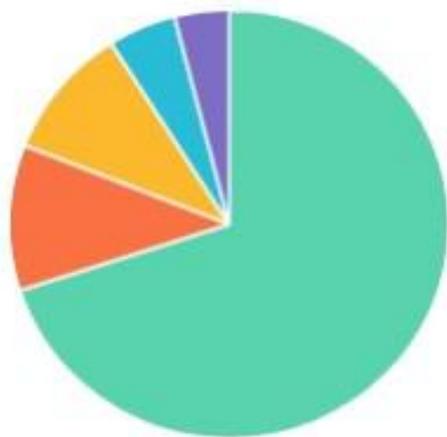

TOKENOMICS

Token Name:	CoinsFee

With over 8 years of experience in blockchain and cryptocurrency technology, vast experience working and consulting with many fintech brands for the development of current and future based technology.

Co-founded the FastCoin Group in 2019 and has contributed a lot to the development of CoinsFee

DISCLAIMER

The legal status of digital tokens is still under development in various jurisdictions. New laws and regulations may change the way tokens operate. Therefore, we cannot guarantee that we will be able to implement some features of the CoinsFee platform, and we reserve the right to amend the terms of the Token sale accordingly.

The CoinsFee token is a utility token designed to support transactions on the FastCoin Exchange platform and to receive transaction and maintenance fees to compensate for the service. We do not recommend buying the CoinsFee token for speculative investment purposes. The CoinsFee tokens do not give equity in any company, nor voting rights or dividend rights. The tokens were issued through Binance smart chain (BSC). With the smart contract number (0x1ec3bb50d5f315524c70e6d2124cedcde232ad68)

LEGAL CONSIDERATION

The Company has used reasonable endeavours to approach the Token Sale responsibly and sensibly.

- ❖ Given the legal uncertainty of distributed ledger technologies businesses and activities as well as for cryptocurrencies and cryptocurrency-related businesses and activities in several jurisdictions, the Company has spent time and resources to consider its business approach and where it proposes to operate now and in the future.
- ❖ The FastCoin Group will use reasonable commercial endeavours to be responsive and compliant in the face of any regulatory inquiry.
